### SUMMARY:

*Body, Identity, and Society in Islam* collects papers presented at the 30th congress of the *Union Européenne des Arabisants et Islamisants*, held in Utrecht, the Netherlands, 7-9 July 2022. The fifteen chapters in this volume treat a range of issues in Islamic religion and law, Arabic, Persian and Turkish literature and linguistics, as well as selected topics in the history of Islam. The variety of approaches to the sources and methods employed shows the width of European research in this field. Thus, the volume provides an easy access to the newest European scholarship on the Islamic world.
